

# Project 2 Grading

Name(s): Mia Granata

When you have completed the project, complete the following form and compute your project grade. Include this file as either a Word or PDF file in the solution folder with your project when you turn it in. No other document format is acceptable. Enter the number of points you deserve for each grading category. You may enter partial points if you feel you have partially completed the category.

Total available points: 100 (+2 extra credits)

__10__	10	Suitable length input video files and documentation turned in.
--------	----	--

__10__	10	Produces a result video beyond what just the sample would have done.
--------	----	--

__30__	30	Category I requirement
--------	----	------------------------

File and location:

__20__	20	Category II requirement
--------	----	-------------------------

File and location:

__20__	20	Category III requirement
--------	----	--------------------------

File and location:

__10__	10	You appear in your video
--------	----	--------------------------

__100__	Total (please add the points and include the total here)	
---------	--	--

_____	1 Extra credit additional item in Category I
-------	--

_____	1 Extra credit additional item in Category II
-------	---

How I implemented a garbage mask (if applicable):

Team members (if applicable):

The grade you compute is the starting point for course staff, who reserve the right to change the grade if they disagree with your assessment and to deduct points for other issues they may encounter, such as errors in the submission process, naming issues, etc.
